Vacuum hoses oil-resistant

Hose profile-coiled made out of polyester-elastomer.

Features: An internally smooth profile hose made out of full plastic having a very low flow resistance and a good reset force (after pressing it together or bending it over) with excellent flexibility, high resistance to oil and fuel.

Range of applications: industrial vacuum cleaner, chemical plant engineering, conveyor and extraction systems, car exhaust systems, hot air. Temperature range: - 60 °C - + 120 °C (temporary up to + 150 °C)

Suction swivel arm

easywash365+

New for self-service vacuum cleaning

- » entirely of stainless steel
- » solid construction
- » suspension

The vertical **easywash365 +** suction swivel arm for self-service!

This cost-effective solution is ideal for single suction places.

In this case, the arm does not necessarily have to be integrated into the cabinet technology, but can be easily mounted on a wall. Perfect if space might be limited, because thanks to its construction claimed for this gyroscope little space and yet offers a lot of flexibility.

The built-in spring prevents kinking of the suction hose and allows a barrier-free handling with optimum freedom of movement.

The vertical **easywash365 +** suction swivel arm is completely made of stainless steel and is supplied with a mounting bracket.

Height 2320 mm.

Tube height 1500 mm.

Internal tube diameter of 65 mm.

Weight 10.1 kg

R+M Nr.
109 001 500

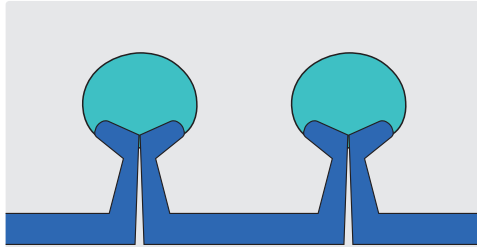

new

Car Wash vacuum hoses

The Car Wash vacuum hoses are equipped with a highly abrasion- and dirt-resistant plastic coil (non marking).

- » Extremely light and very flexible structure
- » An even interior for small pressure drops
- » High elastic recovery in case of radial deformation
- » UV-resistant, weatherproof and flexible at low temperatures

dust class

L

max. 1 %

transmittance

keeps 99,0 % back from:

» dusts with max. concentration of > 1 mg/m³

M

max. 0,10 %

keeps 99,9 % back from:

» dusts with max. concentration of > 0,1 mg/m³
» wood dusts (up to 1200 W/50 l)

dust class

H

max. 0,01 %

dust class

L

keeps 99,0 % back from:

» dusts with max. concentration

» cancer-causing dusts

» dusts with pathogenic germs

R+M fleece filter bags - the user is convinced by their performance!

Features and advantages at a glance:

- » Ideal for the suction of fine dust
- » Extremely tear-resistant thus being designed for the suction of wet, edged and small particle
- » Superior suction capacity to common vacuum filter
- » Excellent filtration at high suction capacity up to a completely filled filter bag
- » Provided with a sealing lip and a clip ** for closing the bag
- » Easy and hygienic removal
- » A long use guaranteed
- » Cost-conscious and cost-saving suction solution
